The Irrigation Pump is scheduled to run between 4am and 10am and 6pm and 12pm everyday

The Irrigation Pump is scheduled to run from 4am until 4pm on Wednesday to facilitate maintenance

There is a smaller pump that is set to run all the time to keep the system charged. It will provide water to most yards (not same rate as Irrigation Pump)

The run time is not adjusted for Daylight Savings time. No need to turn back/forward your sprinkler controller

If you have questions about the Irrigation System, or need help setting your sprinkler timer, text Tom Saunders at 281 853 5960
